Play value

Children love seats that are intended just for them. They use them either according to their original function, or they attribute a new meaning to them depending on what they are playing. Children like to sit down anywhere they are allowed to; they prefer unusual seating such as the Trunk Seat with face. The Toddler's Table promotes communication and can also serve at the same time as a meeting point for an outside facility.

Fundamental characteristics

- Natural wooden surface that appeals to the senses
- Harmonic design

Recommended for

- Children under 3 years
