

Play value

With a sure instinct, our designer has grasped and abstracted the concept of the dachshund in bold strokes. It features the long, slender body, the narrow head with the floppy ears and the characteristic short legs and also expresses the friendly charisma of the little dog. The object is particularly suitable as an artistically designed play point in inner city areas. In recreational facilities, the dog is an amusing alternative seating option for young and old, which promotes relaxation and lightness and encourages role-playing games.

Dachshund

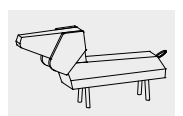

A pack of several dogs can give children's play areas a distinctive identity.

Fundamental characteristics

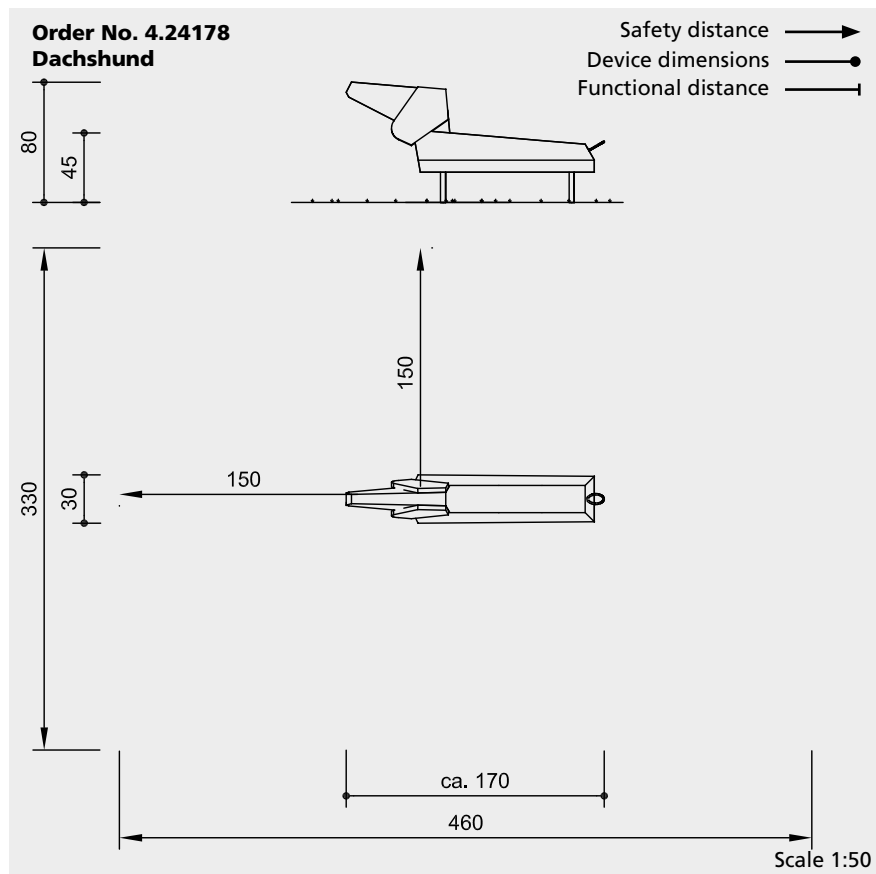

- Play art
- Incentive for playing:
friendly appearance, animal
- Movement: climbing, sitting

Recommended for

- Children under 3 years
- Kindergarten children
- Supervised play areas, such as kindergartens, schools, after-school programmes or similar
- Public play areas without supervision, such as playgrounds, parks or similar

4.24178

Safety check according to DIN EN 1176

Components

- 1 Dachshund
with steel feet

Installation information

Surfacing requirements
corresponding to a fall height of ≤ 1.00 m
(please refer to price list for more
detailed information)

Foundations
2 items 60 x 40 x 20 cm
Excavation depth 40 cm

Attention:
Exact measurements may vary;
for all installation dimensions refer
to current assembly instructions.
Technical changes reserved.

Technical information

Equipment of solid poplar wood, worked
on by hand, boiler pressure impregnated
according to DIN 68800-3, use class 4

Plywood

Plywood made of mountain larch,
three-layer (3 cm) or five-layer (4 cm).
High dimensional stability,
waterproof, glued according to
DIN EN 13353:2011

Richter Hercules type rope

Richter Hercules type rope, a combina-
tion of galvanised six-strand steel cables
and polyester yarn, diameter > 20 mm,
laid and glued with very good abrasion
resistance, strong sheathing even in the
case of damage by puncturing

Aluminium rope pressing

Aluminium rope pressing, cylindrically
pressed, with rounded ends

Ground anchor

All parts used for anchoring to the
ground are made of hot-dip galvanised
steel or stainless steel

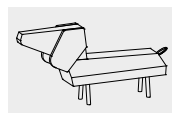

**For more detailed explanation of the
quality characteristics see price list.**

Standard colour rope (tail): natural

Dimensions

(small deviations possible)

Length	1.70 m
Height	0.80 m
Width	0.30 m
Weight	100 kg
