

Play value

Our playscapes have been designed especially for day-care centres. They consist of individual modules which can be freely varied and combined to suit individual needs. We create exciting and diverse playscapes from platforms and different wooden boxes that can be filled with water, plants, play sand or balls. The system is complemented by awnings which can be mounted in a number of ways.

Fundamental characteristics

- Friendly appearance
- Child-oriented dimensions according to ergonomic knowledge
- The space-defining design appeals to the senses
- Numerous play offers
- Sunshade

Recommended for

- Children under 3 years
- Kindergarten children
- Supervised play areas, such as kindergartens, schools, after-school programmes or similar
