

Instructions for wear checks of play equipment

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground.....

Date of installation

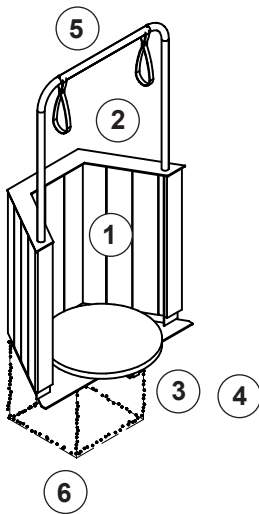

Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Intervals for maintenance work and checks generally depend on

- the location
- the usage
- the frequency of use
- possible vandalism

For more details see also "General instructions for maintenance of playgrounds".

Street Car
Order No. 11.50202

Wooden parts

1. Check for rot and, if necessary, smooth out splinters and round off sharp edges of cracks.

Polyethylene panel

2. Check for external damage and sharp edges, file down if necessary in order to prevent injuries.

Mechanical parts

3. Check the connection between floor panel and balancing disc.
4. Check that bearing moves smoothly.

Straps

5. Check for wear and tear, replace if necessary.

Structural stability

6. Check the fixation to the ground once a year.

Special notes, e.g. for repairs

Repair not carried out, it is still possible to play on equipment

Repair not carried out, equipment is taken out of action

All work carried out, everything is in order

Maintenance carried out by:

..... Date
