

Instructions for wear checks of play equipment

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground.....

Date of installation

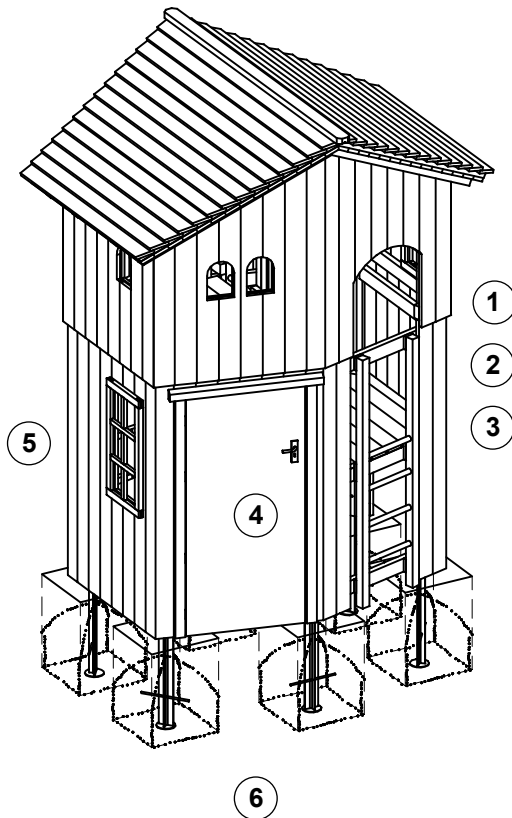

Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Intervals for maintenance work and checks generally depend on

- the location
- the usage
- the frequency of use
- possible vandalism

For more details see also "General instructions for maintenance of playgrounds".

Hexagonal Tower with lockable kit room
Order No. 3.20900

Wooden parts

1. Check for rot and, if necessary, smooth out splinters and round off sharp edges and cracks.
2. Check all bolts and screws are tight and retighten if necessary.
3. Check the ash wood rungs of the ladder for wear and tear, the remaining diameter must be at least 30 mm.

Kit room

4. Check door for function and tight fit

Window

5. Check glazing (VSG 8 mm) for intactness and tight fit

Structural stability

6. Uncover the foundation once a year in order to check the steel feet for corrosion.

Special notes, e.g. for repairs

Repair not carried out, it is still possible to play on equipment

Repair not carried out, equipment is taken out of action
