

Instructions for wear checks of play equipment

The combination must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground.....

Date of installation

Checks depend on the type of equipment (at least twice a year).

Intervals for maintenance work and checks generally depend on:

- location
- usage
- frequency of use
- possible vandalism

For more details see also "General instructions for maintenance of playgrounds".

Concrete Columns

for Rope Course

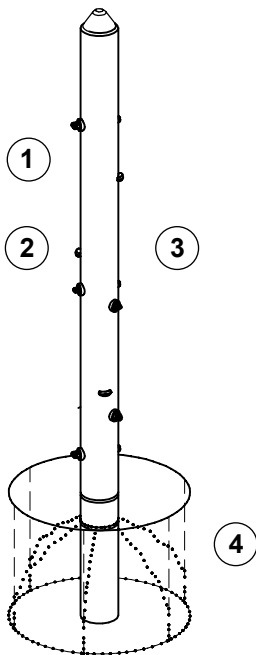

Order No.

6.49100/6.49101/6.49102

Climbing Grip

for Rope Course

Order No. 6.49103

Concrete

1. Check for vandalism (chipped edges), and if necessary deburr sharp edges with an angle grinder or mend them with fast drying concrete or epoxy resin.

Fittings and climbing grips

2. Check that the fittings are securely connected and realign if necessary.
3. Check that the climbing grips are securely connected and retighten bolts if necessary. Replace severely worn or damaged grips.

Structural stability

4. Have trained personnel check the condition of the concrete columns **twice** a year. Dig around the columns down to the foundation before carrying out this step.

Attention:

Strictly adhere to the maintenance intervals!
