

# Instructions for wear checks of play equipment

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground.....

Date of installation .....

Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Intervals for maintenance work and checks generally depend on

- the location
- the usage
- the frequency of use
- possible vandalism

For more details see also "General instructions for maintenance of playgrounds".

## Triple Beam Swing Order No. 7.73000/L7.73000

lubricating nipple

detailed diagram D

### Wooden parts

1. Check for rot and, if necessary, smooth out splinters and round off sharp edges of cracks.
2. Check all bolts and screws are tight and retighten if necessary.
3. Recommendation: apply paraffin wax to the upper end grain areas once a year, please refer to order No. 0.90100, 1 litre.

### Function

4. Check the slack: in order to ensure the equipment is fully operative and achieves a long service life, there must be at least 35 cm slack. Otherwise the ground anchors will bear too much load (see detailed diagram A). Use turnbuckles to adjust the tension if necessary. (see detailed diagram B).

### Joints

5. Grease ball bearings via the lubricating nipples (see detailed diagram C).
6. Check that all connections between ropes as well as between wooden parts and ropes move smoothly.
7. Make sure that the swivels move smoothly see detailed diagram D, apply small amount of grease if required.
8. Check connection to wood, tie joint must fit closely (see detailed diagram D).

### Ropes

9. Check for wear and tear. Replace if steel reinforcement is damaged.

### Structural stability

10. Uncover the foundation once a year in order to check for rot or the steel feet for corrosion.

Repair not carried out, it is still possible to play on equipment

Repair not carried out, equipment is taken out of action

All work carried out, everything is in order

Maintenance carried out by:

..... Date .....

Special notes, e.g. for repairs
